EDUCATION

ABES Engineering College, Ghaziabad, India B.Tech in Computer Science Engineering 2024–2028

PROFESSIONAL SUMMARY

Aspiring Full-Stack Developer pursuing B.Tech in Computer Science Engineering with experience in backend development using Python, FastAPI, and Flask. Familiar with REST API development, database integration, AI-powered applications, and Git-based workflows. Interested in full-stack development, AI automation, cloud technologies, and scalable software systems.

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, Java, C++
Frontend Development: React.js, HTML5, CSS3, JavaScript
Backend Development: FastAPI, Flask, REST APIs, API Integration
Database Technologies: PostgreSQL, SQL, Supabase
Cloud and DevOps: Git, GitHub, Docker, GitHub Actions, CI/CD
AI and Automation: Streamlit, Generative AI, AI Workflows
Design Tools: Figma, Canva, Framer
Tools: VS Code, Postman, Kaggle

PROJECTS

JobFinderAgent – Autonomous AI Job Search Assistant GitHub Repository

- Developed an autonomous job discovery and outreach platform using Python and CrewAI.
- Built multi-agent workflows for resume parsing, skill extraction, opportunity matching, and job ranking.
- Integrated Serper and Tavily APIs for automated job discovery and aggregation.
- Implemented company evaluation and opportunity prioritization pipelines.
- Developed AI-powered personalized cold email generation workflows.
- Integrated Gmail API using OAuth 2.0 for automated email delivery.
- Technologies: Python, CrewAI, REST APIs, Gmail API, OAuth 2.0, AI Agents.

StateCraft Podcast Platform GitHub Repository

- Developing a podcast discovery platform focused on public policy, governance, and current affairs content.
- Building responsive user interfaces using React, TypeScript, and component-based architecture.
- Implementing authentication, favorites management, and episode organization features.
- Integrating backend services and APIs for content retrieval and user-specific experiences.
- Utilizing Git and GitHub workflows for version control and collaborative development.

Backend API Development

- Developed RESTful APIs using FastAPI and Flask.
- Implemented request validation, routing, structured API responses, and authentication workflows.
- Applied debugging, testing, and backend integration best practices.

LEADERSHIP AND ACHIEVEMENTS

- 2nd Runner-Up – Agentic AI Hackathon, ABES Engineering College
- Participant – HCL-GUVI GenAI Hackathon
- Participant – Smart India Hackathon (SIH)
- Organizer – Smart ABES Hackathon (SAH) 2.0
- Organizer – ACPC Hackathon (Regional Level)
- Core Member – ACM Student Chapter
- Core Member – ACM-W Student Chapter
- Conducted Hour of AI sessions for student communities
- Organized ESP and DSP learning sessions

INTERESTS

- Full-Stack Development
- Backend Engineering
- Artificial Intelligence and Automation
- Women in Technology Initiatives
